NOW THEREFORE, THE CITY OF BELLINGHAM DOES ORDAIN:

Section 1. The property located adjacent to the southeast boundary of the City of Bellingham, commonly known as the San Juan /Yew Street Annexation as described in the legal description in Exhibit "A," is hereby annexed to the City of Bellingham.

Section 2. The area annexed herein shall assume its proportional share of the existing indebtedness of the City of Bellingham.

Section 3. A new Area 13 is added to Whatcom Falls Neighborhood Plan component of the Bellingham Comprehensive Plan as described below.

AREA 13

Area 13 comprises approximately 12 acres. Yew Street abuts the area on the east; San Juan Boulevard extends from Yew Street in an east/west alignment through the northern portion of the area linking Yew Street with the Pacificview subdivision. To the south is the 83-lot Woodbine subdivision. The area was annexed to Bellingham in 2008.

The area lies within the Cemetery Creek watershed and drains northward via the west fork of Cemetery Creek. The topography generally slopes to the east and north. Deciduous and evergreen trees are found throughout the undeveloped areas. An open space tract lies to

the west of the Area 13 and includes the west fork of Cemetery Creek. Stream protection should be required as development occurs. Several wetland areas have been identified in the National Wetlands Inventory maps using data from aerial photographs and soil maps. This wetland information is considered incomplete due to its inability to detect wetlands on the ground beneath any forest canopy. As a consequence, delineation studies should be required when development is proposed.

Storm water runoff should be collected through a series of catch basins and storm drains and detained in ponds and released at its natural points of discharge along the boundaries of the area. A County maintained stormwater facility exists within the northern portion of the area which drains into Consolidation Creek. The existing storm water pond was constructed as mitigation for the County's Yew Street road improvements.

San Juan Boulevard extends through the area providing linkage between Yew Street to the east and Pacificview subdivision to the west. Vehicle access from San Juan and Yew Street should be limited. Parks, trails and open space are needed to serve future residential development. Trail corridors, setbacks from creeks and wetlands should be considered as development is proposed. Proposed trails should lie into existing City trails and open space areas.

Land Use Designation, Single Family Residential, Medium Density

Section 4. A new Area 13 is added to the Whatcom Falls Neighborhood Land Use Map of the Bellingham Comprehensive Plan Map as shown on Exhibit "B".

Section 6. A new Area 13 is added to the Whatcom Falls Neighborhood Zoning Table of Regulations as shown on Exhibit "C".

Section 7. A new Area 13 is added to the Whatcom Falls Neighborhood Zoning Map as shown on Exhibit "D".

Section 8. This ordinance shall be effective, February 13, 2009
